

## **C++ Assignments | Binary Search Tree 2 | Week 18**

1. Given a BST, count subtrees in it whose nodes lie within a given range.
2. Given a BST and two keys in it. Find the distance between two nodes with given two keys. It may be assumed that both keys exist in BST.

*Note:- Please try to invest time doing the assignments which are necessary to build a strong foundation. Do not directly Copy Paste using Google or ChatGPT. Please use your brain 😊.*
