

C++ Assignments | Recursion - 1 | Week 11

1. Write a program to calculate the sum of odd numbers between a and b (both inclusive) using recursion.
2. Calculate the number of ways in which a person can climb n stairs if he can take exactly 1, 2 or 3 steps at each level.
3. Given a positive integer, return true if it is a power of 2.

Note:- Please try to invest time doing the assignments which are necessary to build a strong foundation. Do not directly Copy Paste using Google or ChatGPT. Please use your brain 😊.
